MINUTES

I. Introductions: Mary Stahlhut, IA DOT; Lindsey Killebrew, MDOT;

II. Ten state CMP: Refine draft strategies, simplify framework to remove repetition, and emphasize priorities.

The 10-state Great River Road Corridor Management Plan draft was reviewed by strategy. Revisions were developed and focus improved. After much discussion it was determined that the Chair would work to simplify the framework developed by FHWA to reduce repetition and overlap, while also better reflecting the characteristics, challenges and opportunities working at a ten-state scale. Because of other project demands, Carol will aim to provide a revised draft a month prior to the Annual Meeting In West Memphis, Arkansas.
