- a) Where are we and what are we aiming for? MN GRR, MRPC and other state's GRR online mapping demonstration: Participants reviewed the www.experiencemississippiriver.com interactive map and were determining the data shown with what the CMP recommends as needed to manage the route and promote it. NOTE: a meeting participant put the teleconference on hold and the resulting Muzak precluded further discussion. Thank you to all who tried to reconnect. Thanks too to those who emailed information on their maps, available data and recommendations. I'll incorporate and send an updated analysis sheet for our next meeting.
- The good news is when the participant hung up the Muzak stopped, which inspires a recommendation to place future teleconferences on mute, not hold, when participants needs to step away.
