- III. National Advisory Committee on Travel and Tourism Infrastructure (NACTTI) Update:** The Administration reduced NACTTI membership by about half during the summer of 2018. Originally members, the Hawaii and Minnesota DOT Commissioners are no longer on the NACTTI. <https://www.transportation.gov/NACTTI> has information on current membership and 2018 meetings.
- IV. Great River Road Ten-State Corridor Management Plan**
Discussed the morning presentation by Secretary of Transportation Rodney Slater, with a general consensus that the MRPC should follow up by capturing the comments in written or video form for the use of promoting CMP implementation by MRPC, state agencies, river communities and partners. MRPC should learn more about Transportation Week to determine how they might participate to encourage resources for GRR and National Scenic Byways.
- Reviewed BOD Strategic Plan's CMP-related results which confirm the importance of partnerships. Committee then reviewed and suggested revisions to the CMP final draft and recommended approval by the BOD.
- Committee recommends the initial implementation action by Transportation is to request NO develop a technical services contract cost estimate to conduct the mapping related to the GRR route and wayshowing, MRT route and wayshowing, byway infrastructure and intrinsic resources, then incorporating the data in the website map, phone app and print map.
- Committee recommends BOD meet with each standing committee to develop CMP implementation priorities and schedule, as well as a plan to introduce the CMP to state DOTs, DNRs, ICs, MRCTI and MRCC and discuss resources to support specific tasks.
- VII. Relay of Voices: The Great River Run MOU:** The Committee did not have a copy of the document so tabled this item.
- VIII. Discuss next teleconference meeting date and agenda:** Carol will send a Doodle Poll after the first of the year to determine our next teleconference.
